WHO OWNS THESE PARKS?

THE PARKS HIDE THE TRUTH REGARDING WHY PEOPLE GO MISSING

Do not deviate from the marked trails because some of those who do are never found.

IF SOMEONE GOES MISSING THE PARKS ARE TOLD TO BLAME THE

Weather
Touraine
Wild Life

What Habitat are they trying to Restore?

Why are government facilities hidden in national parks

Cryptids are transported in Black Boxes

Why are there underground tunnel openings in national parks?

People go missing from camp sites without their boots, cell phones, etc. No tracks leaving the sites are found.

Over the years, the United Nations has gradually purchased most of our precious National parks in the United States of America, and now they are working on buying all major U.S. cities. But why? What is the bigger picture? What is coming to America?

Notice the maps above show underground DUMB (DEEP UNDER GROUND MILITARY BASES) locations the underground railways and tunnel systems that are located

right below these National Parks and their DEEP STATE installations.

What if the reason the UN wants to own these National Parks and Cities is for their NEW WORLD ORDER AGENDA'S. We know that Dogman, Bigfoot and other chimera live underground and have been associated with these DUMB bases. We know today that Dogman and other chimera stalk terrify and murder people in these parks as more reports of missing people continue. People sign in and never sign out.

Search teams find nothing while their dogs will not hunt for these lost people. Dogs are able to sense danger we cannot.

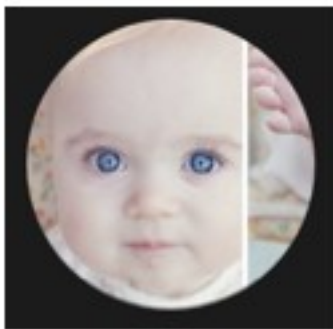

The UN is associated with the DEEP STATE NWO. Right now, it looks like Trump is attempting to something about that. Either by selling or giving them to the states they are in to manage and control or to sell to those who are able to manage and control them because right now these National Parks are under the COVERT control of the DEEP STATE installations that exist in and under these parks. I am not following what Trump is doing about the problems inside the park systems. I am simply warning everyone that if you want to camp out do it on you deck or in your own back yard where it is safer. Warnings and horror stories are all over the Internet.

Stay Safe,

AGL
